

## Selection procedure - Examinations

The coordinating committee of the Master's degree programme is responsible for the selection of students. The selection is made after an entrance examination. The following criteria must be taken into account in the selection process (the weighting is given in brackets):

- Bachelor's/Diploma grade (20%)
- Average grade of the subjects relevant to the Master's degree programme (5%)
- Bachelor's/Diploma thesis (if this corresponds to the content of the chosen subject and if a Bachelor's/Diploma thesis is planned in the degree programme) (5%).
- Research activity and/or publications (if these correspond to the content of the chosen subject) (10%)
- Oral interview (10%)
- Grade obtained in the entrance examination for the Master's programme (50%)

Both the oral and written entrance examinations are held in German. Further information regarding the examinations can be found in the study regulations.

The exams will take place in October 2023. The examination dates will be announced next September on the MA programme website.
